

The file `visualization_plt-py.html` creates a number of common visualization plots using the `matplotlib` package.

Please create similar plots using the grammar of graphics framework (`ggplot`) using the `plotnine` package.

If you'd like, you can use the file `visualization_plt-py.ipynb` as a template for your work.

Please submit your work as `hw3.ipnb` and `hw3.html` to **Canvas**.
